

Category	Message
Adult Ed	Will there be someone to address the Title 2 Adult Education responsibilities?
Adult Ed	Keep in mind it is not just out of school youth and young people in adult ed...
Adult Ed	In KY, we co-enroll everyone who is a claimant into employment services. This includes partnering with our Adult Ed who are in the career centers.
Adult Ed	Is Adult Ed given the lead on workplace skills?
Comment	got it nailed
Comment	Always like to see what others are doing
Comment	Also, Federal partners.....please consider how single area states are different.
Comment	thank you BZ
Comment	None - we've had it
Comment	I will run through Subtitles fast give more time to others
Comment	There has not been a great deal of evidence that ED and DOL are really on the same page. ED seems to be trying to figure out how to make minimal modifications to their existing model that would allow them to claim that they are implementing WIOA
Comment	regression model
Comment	WE don't have much seasonal farm workers in our metropolitan area.
Comment	To do these sessions in the future, it might be helpful if the presenter's duties, titles and or focus area so as they speak, you can see their functions.
Comment	TAACCCT grant in East Bay CA has all community colleges and WIBs using Sales Force for joint employer contact.
Comment	When will federal regs be released
Comment	It's SPRING :o)
Comment	I encourage DOL to use technology when delivering training on the implementation of WIOA i.e. Region V SMART Training 4/7-9
Comment	great job
Comment	great job
Comment	Fantastic session, thanks from NJSETC!
Comment	Thanks!
Comment	Will you be emailing the slides after the presentation?
Data	If this is data driven can we get a unified data dictionary to share and integrate into our processes
Data	definitions of the common measures
Data	HOW are you sharing intake information and sharing it with other partners???
Data	data sharing process in absence of common data system
Data	Data Collection and common intake
Data	Method for determining skills gain and definitions of credentials
Data	If we are to be successful in overall system design, measures need to get beyond what is in WIOA. There are going socio-economic realities that WIOA measures can't get at, nor solve alone.
Data	Everybody keeps saying the data collection for intake and referral is so important, but NOBODY IS SAYING WHAT TO DO ABOUT IT.
Data	performance!

Category	Message
Data	Not just with this one (#13a) -- with all of this, developing compatible technology. Sharing data. Do all federal partners realize what data we need to share. Such as SSA?
Data	What does the law say about developing a common intake process? Is this a requirement?
Data	If you braid funding please only require a single reporting agency it makes no sense to have multi/different reporting requirements for a single program
Data	Please define who is the customer for the new law?
Data	#15a -- connecting technology between UI and WP
Data	We have coordinated services extensively for more than 20 years. What hampers us is the lack of a compatible data system.
Data	Performance: How will DOL's regression model handle the WIA-WIOA transition given that the common measures are slightly different,, youth focus is now OSY rather than ISY, and some states/locals are pursuing automatic co-enrollment?
Data	Any luck getting all potentially impacted federal agencies to defer to WIOA strategic plan and performance measures to promote combined plans? Several key partners in our state have been told by federal sponsors that they would have to do two plans and have two sets of measures.
Data	common intake form
ETPL	through WIOA can industry associations become approved as eligible training providers?
One-Stop Delivery	Can you share your MOU template?
One-Stop Delivery	Please send a copy of the MOU template to webinar attendees.
One-Stop Delivery	How does in-kind contributions impact infrastructure costs?
One-Stop Delivery	We would like to understand what would the process be if the mandated partner who is not negotiating or coming to agreement is the State partner. In our state the primary issue we have with cost allocation and MOU signatures are with the State partners. Additionally, we are interested to understand if there will be defined in-kind costs. As we are working with new or different mandated partners, there are questions about what does the cost allocation mean to them specifically.
One-Stop Delivery	Why doesn't anyone understand that locals can't make deals with the locals of other partner agencies, because like US, they are also funded via formulas through the STATE
One-Stop Delivery	some of us think we should start by partners coming together to design the system with the customer in the center. then figure out MOUs. Starting with MOUs will ensure we are thinking about our programs, our data, our processes, and not the needs of the customer.
One-Stop Delivery	understanding the implications of the competitive process
One-Stop Delivery	Procuring an operator
One-Stop Delivery	What are some of these alternative methods that can be used to be identify participants all program serve?
One-Stop Delivery	Procuring One-Stop operator
One-Stop Delivery	Stephanie, what procedures is Michigan putting in place to identify who the client is affiliated with (as in different titles), to keep track, etc.?

Category	Message
One-Stop Delivery	Determining shared cost is one of the most terrifying components of WIOA.
One-Stop Delivery	we felt that we have our one-stops organized as fully integrated and the transition will be smooth.
One-Stop Delivery	we never got resource sharing agreements done in 15 years, not sure what will be different with WIOA MOU's
One-Stop Delivery	Similar to the issue of distinguishing between regions and local areas, the same holds true for system design and One-Stop locations. One is macro - state level coordination of agency levels and micro - local activities through those providing services.
One-Stop Delivery	Is it possible to negotiate the MOUs, especially cost sharing component, if local area is still in the middle of one-stop operator procurement process?
One-Stop Delivery	Is the 20 percent requirement a direct cost requirement or does it also include staff and overhead cost?
One-Stop Delivery	getting providers to meet ADA requirements in their facility
One-Stop Delivery	seamless WIA - WIOA transition around carry in funds.
One-Stop Delivery	procurement
One-Stop Delivery	CO-location - In Ca. EDD staff cannot work in buildings that don't meet a high safety requirement that many one-stops do not meet
One-Stop Delivery	Is there a distinction between the "One Stop Delivery System" and the One Stops (meaning the Centers)
One-Stop Delivery	Cost sharing
One-Stop Delivery	Functional Supervision
One-Stop Delivery	CULTURE! Please, help.
One-Stop Delivery	If we are not going to be stepping on each other as employer contacts are made, we must have partners utilizing a common employer contact system.
One-Stop Delivery	cost sharing
One-Stop Delivery	Employment First as cultural change in the One-Stop
One-Stop Delivery	resource sharing
One-Stop Delivery	cross training
One-Stop Delivery	cost sharing
One-Stop Delivery	Has there much discussion of the entanglement of WIOA with the SSA Ticket to Work program? When reading WIOA regarding the TTW program, I have noticed that requirements don't align with the current CFRs and TTW rules
One-Stop Delivery	Do one-stop operators have to be competitively procured or can the chief elected official designate the operator under Section 121 (d)(1)?
Question	Will DOL sponsor performance summits under WIOA like it did under WIA?
Question	In KY, we're advocating workplace skills assessments through our local WIBs; is there a possibility that DOL will look at these assessments as a measure for compliance?
Question	Suggest attach training opportunities to the Southeastern Employment and Training Association (SETA) Fall 2015 Conference. Typically 400-500 staff and board members have participated in past years. This provides an opportunity to expand offerings to core partner staff, particularly on performance.
Question	can you give us a sense of how many people are on call/answering polls so we get a sense of scale? Are there 20 people or 400?

Category	Message
Question	Is it possible to get a copy of the results from the poll questions?
Question	What happens to WIA carryover funds on June 30, 2015?
Question	When will the LLSIL guidelines be issued for low income definition?
Question	Where can I find a list of the differences between WIA and WIOA?
Question	What about Trade - TAA?
Question	how is Unemployment Benefits affected by WIOA?
Regional Activities	When do the states plan to complete initial workforce development areas?
Regional Activities	If a state is a single area state -- does that then mean the Governor does or DOES NOT designate regions?
Regional Activities	What happens to those of us at the corner of a tristate area that is not unique to a single state?
Regional Activities	Are designated planning regions liable for section 116 WIOA performance measures or is that just an option?
Regional Activities	What if your local areas were largely designated as economic regions?
Regional Activities	different regions for different industrial sectors?
Regional Activities	To go with my last question; we aren't sure about designating regions in a single area state
Regional Activities	What conversation has there been at the federal level relative to sharing unemployment insurance data for regions that are multiple states - we know we have jobseekers we have served working with regional employers we have served, but we only confirm the Ohio employment through UI because that's all we have access to?
Regional Activities	In the Triangle area of NC, the region is a 15-county regional economic development region.
Regional Activities	And how do you handle regional performance across statelines for those regions that do so?
Regional Activities	Who is responsible for the regional metrics? I can't see that there will be paid staff, so who will be driving those?
Regional Activities	regional measures across state lines?
Regional Activities	How will WIOA Title I formula allocations work when a local area spans two states and involves two Governors?
Rehab	How are One Stops supposed to be able to provide services to disabled individuals with NO MONEY to train staff or purchase appropriate remedial equipment???
Rehab	In our area, vocational rehabilitation and Wagner Peyser and WIA staff all serve customers out of the same location.
State and Local Boards	I have two questions I'd love it if you could address at some point: 1) When do the various certifications have to happen? e.g. state certification of the LWIA, LWIB certification of the One Stops, etc, etc. AND 2) When do our current strategic plans go inactive and the new four year strategic kick in?
State and Local Boards	How are you distinguishing state v. local boards?
State and Local Boards	I'd be interested to understand what the process of engaging the locals during the State strategic planning process. Similarly, what is the role of the SWIB?

Category	Message
State and Local Boards	Getting the State to actively engage the locals.
State and Local Boards	Will need to find out where the plan may be display on the net
State and Local Boards	Could we recap the difference between State needs and Local needs?
State and Local Boards	Who has a definitive list of the new and ongoing responsibilities for the local boards?
State and Local Boards	Need guidance plans to be passed on to local participants
State and Local Boards	The local plan is more than a year away and requires direction from the state board. The local plan is not an immediate need.
State and Local Boards	What have we figured out about the national identifier? We haven't been able to even say the word marketing, and now we're going to be responsible for implementing the new national identifier. I don't think most WIB staffs are prepared to do that. I hope an implementation plan is provided along with the identifier.
State and Local Boards	When do local WIOA Boards have to be in place and certified?
State and Local Boards	In addition to the combined state plan will adult ed, and rehab services have to development stand alone plans for their programs?
Vets	Process for getting verification of DD214 when Veteran doesn't have a copy is cumbersome and time consuming.
Vets	Point of entry for veterans and eligible spouses may be a more challenging issue than priority of service
Wagner Peyser	Do we thing Wagner Peyser stand alone locations will be allowed to continue to exist? The legislation says no, but I'm hearing from our Wagner Peyser people they're planning on retaining them.
Wagner Peyser	No problem in MT since we are already integrated with Wagner-Peyser - we use the same reporting/case management system.
Wagner Peyser	As WP is a state driven system in our state, need to know what the state's plan/direction is.
Wagner Peyser	funding - WP tends to not pay its' fair share of cost
Wagner Peyser	unionized labor agreements with WP but not much else. Incredibly unprofessional dress codes.
Youth	Will the WIA Waiver of procurement of some of the youth program elements continue to be in place for PY15? Do the 5 new youth program elements have to be procured by July 1, 2015 or July 1, 2016?
Youth	What kind of evidence will be required to prove 75% expenditure rate on OSY?
Youth	WE have been doing out of school youth for the last three years and we need help with performance results with this more challenged group.
Youth	Also -- ways to recruit out of school youth; how to reach them
Youth	Locating OOS youth
Youth	The youth 20% work experience expenditure also includes program-related costs? It would be helpful to have a definition of program-related costs.

Category	Message
Youth	are youth that are currently classified as out of school, will they retain that status under wioa?
Youth	Definitions of New Youth Elements...the 4 new ones.
Youth	IMHO, the youth measures have always been over-complicated. To the detriment of the measure Are discussions w States & Locals currently happening?
Youth	Are youth served by adult education considered attending or not attending school?
Youth	Transition current WIA in school expenditures to new WIOA requirements
